* See warranty details on website

GamTubes™ are colored filter sleeves that slip over fluorescents to correct or change their color. They're an excellent and economical choice to simulate neon, reduce glare or achieve color correction. GamTubes™ are available for every fluorescent lamp from T-2 to T-12. They're also available for biaxial & compact fluorescent lamps.

GAMTUBE™ UV SHIELD PREVENTS COLORS FROM FADING

Slides on for Easy Installation

Fluorescent lamps generate high levels of ultraviolet energy which is detrimental to dyes in fabrics, paintings, drawings and other art work. GamTube™ UV Shield is an extremely effective way to protect your valuable items. Use alone or layered under a colored GamTube™. GamTubes™ are easy to install, reusable and flexible, and fold flat for storage and shipping. UV material is also available in sheets and rolls and in WindowGrip™.

DICHROICS FOR MR 16 LAMPS

Precise optical coatings on glass make a highly heat resistant, durable and long lasting color filter that is ideal for low maintenance installation. Manufactured to high standards, GamChroics™ are available in a variety of traditional color filter sizes and shapes for ellipsoidal spotlights, PAR units, MR-16s and more.

- High Temperature and Heat Resistant
- Any Custom Size or Color
- Available in Ultraviolet (UV) and Infrared (IR) (filters or reflectors) as well as combination UV and IR

GamChroics™

Long Life Color Sleeve Filter in over 160 Colors

ADDITIONAL UV PROTECTION FOR EVEN LONGER COLOR LIFE:

- Two Year Colorfast Warranty *
- Available in any GamColor®
- Installs Quickly and Easily
- Available in any Size & Length
- Can be Trimmed with Scissors

SuperTubes™ are similar to GamTubes™ but designed for even more demanding applications, with a TWO YEAR NON-FADE WARRANTY!* SuperTubes™ utilize a unique double UV protection barrier system that gives twice the UV protection, critical for today's high output fluorescent fixtures. SuperTubes™ protect in two ways: with a clear UV reduction sleeve and then with an overlaid color sleeve, also with UV inhibitors. The two are welded together for ease of handling and installation. SuperTubes™ are available in ANY SIZE AND ANY COLOR.
